

Apprenticeship Information Evenings

Raising awareness for Parents and Students

- **How much do you know about apprenticeships and how to apply successfully?**
- **Do you know there are Apprenticeships in everything from Accountancy to Zoo keeper?**
- **Have you considered an Apprenticeship as an alternative to University?**
- **Are you aware of hundreds of Apprenticeship opportunities currently available in Northamptonshire?**

Horizons (the company delivering Connexions) in partnership with Northamptonshire County Council will be holding information evenings in your area to promote awareness of apprenticeships.

The events are aimed at parents and students in years 9 – 13.

At Horizons we want to share the fantastic range of apprenticeship opportunities available for young people in Northamptonshire.

The evening will include information from local employers, training providers, Northampton Enterprise Partnership and young apprentices.

By the end of the event you will have a better understanding of how to support your child into finding the right apprenticeship for them.
